

MEMORANDUM FOR ARMY BOARD MEMBER, COLONEL PATRICK DUNKLE
NAVY BOARD MEMBER, CAPTAIN MIKE HERB
AIR FORCE BOARD MEMBER, MR. PAUL PRICE
MARINE CORPS BOARD MEMBER, MR. JERRY MAZZA

SUBJECT: Correction of error in Note 1 of recently revised C9.T4

Reference: DDESB-KT Memorandum of 05 December 2001, Subject: 321st Board Meeting

The referenced memorandum provided approval of the Department of Defense (DoD) Explosives Safety Board Secretariat's proposal, as given in attachment (3) of the referenced document, to clarify DoD criteria for application of barricaded intermagazine distance and intraline distance separation. A minor correction is needed to a portion of new Note 1 that was added to existing Table C9.T4. This note can be found on Attachment 3, page 4 of 5, of the referenced document, and the correction is as follows (**NOTE**: the remainder of Note 1 remains unchanged):

Currently Approved Version:

669 ft < d < 794 ft NEW = 1.4915e+08 - 6.7025e+05*d + 998.47*d² - 0.42909*d³

Corrected Version:

669 ft < d < 794 ft NEW = 1.50138e+08 - 6.73914e+05*d + 1002.9*d² - 0.4938*d³

My point of contact for this correction is Mr. Eric Deschambault, Commercial: 703-325-1369, DSN: 221-1369; Fax: 703-325-6227; E-mail: Eric.Deschambault@ddesb.osd.mil.

/s/William E. Wright
Captain, US Navy
Chairman
